Dean Prof. Cavit Kum

Veterinary Education Establishment (VEE)
Adnan Menderes University

Batı Kampüsü
9016 Aydın

TURKEY

Vienna, 18th January 2022

Dear Dean Prof. Kum,

On behalf of ECOVE, who met on 14 December 2021, I herewith inform you of the Evaluation result based on the ESEVT full Visitation to your VEE on 11 – 15 October 2021.

The Committee concluded that the following Major Deficiencies had been identified:

1. Non-compliance with Substandard 4.1 because the facilities do not comply with all relevant legislation including health, safety, biosecurity, and animal welfare and care standards.
2. Non-compliance with Substandard 4.6 because the isolation facilities do not meet the standards.
3. Non-compliance with Substandard 5.1 because the number and variety of healthy and diseased animals, cadavers, and material of animal origin is not adequate for providing practical and safe hands-on training to students.
4. Non-compliance with Substandard 5.4 because there is no functional case records system to allow effective retrieval of comprehensive medical records to efficiently support the teaching, research and service programmes of the VEE.

In accordance with the European System of Evaluation of Veterinary Training (ESEVT) and based on the educational requirements of the Directive 2005/36/EC as amended by Directive 2013/55/EU,

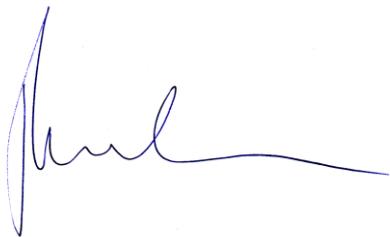

**the status of the VEE of the Adnan Menderes University is
NON-ACCREDITATION**

In line with our agreement, please publish the SER and the Final Visitation Report on your website.

In accordance with the *ESEVT SOP 2019 as amended in December 2020* under which the Visitation was completed, a Re-visitation may be organised as soon as you believe that the Major Deficiencies have been corrected and an ongoing process is in place to correct the Minor ones (listed in detail in the Final Visitation Report). Please note that the Re-visitation must be performed 3 years after the previous Visitation at the latest and can only be performed once; if this interval is exceeded, only a full Visitation can be planned.

Should you have any questions, please do not hesitate to contact me (Florian.Buchner@vetmeduni.ac.at), the Director of ESEVT (pierre.lekeux@eaeve.org) or the EAEVE Office (office@eaeve.org).

Yours sincerely,

Prof. Florian Buchner
Chairperson of ECOVE
